**Hotel Uday Samudra, Kovalam, Trivandrum, Kerala**

**[iappem2025@gmail.com](mailto:iappem2025@gmail.com)**

Over the past decade, Pediatric Emergency Medicine has experienced significant advancements. Given the varied needs of our diverse population and the specific requirements of developing nations, it is crucial to work together, exchange knowledge, and adapt to emerging child healthcare challenges. The Collaboration fosters the creation of agile, innovative and committed teams that can provide fresh perspectives on Pediatric illnesses and restore joy to children and their families. The Conference shall include topics of importance, relevant to current scenarios and latest developments by eminent faculty from India & other countries. We shall discuss future implications and roadmap ahead to achieve the goal of reducing morbidity and mortality in children by providing state-of-the-art - Pediatric Emergency Care. As Pediatric Emergency Medicine is still in its baby steps in India, it is our duty to make every child get optimal care in the emergency room, hence the theme of 2025 NAPAM is Making the ED Pediatric Ready.
